One Liter of Book-Size
Boundless knowledge, as like dipping in a sea of books is the spirits of LIVA One series, small but powerful.

Choice CPU by your demand
LIVA One series mini PC is so flexible for everyone. Providing great performance with Intel 8th CoreTM, Pentium® and Celeron® Processors* (Up to 35 Watt Core i7).
Fits Everywhere
Thanks to VESA mount (100x100 or 75x75mm), you can install it behind your monitor or TV to save desk space. This offers great flexibility in space-constrained environments such as offices and digital signage locations.

For All Your Devices with Type-C Connect
It delivers data transfer speeds up to 5x faster than older USB 2.0 connections! With reversible USB Type-C™ connector design that

makes connecting devices simple and quick.

Support 3 Displays Output
LIVA One series mini PC features with three video output: HDMI, DisplayPort and D-Sub. Supports dual displays at same time. In addition, it provides up to 4K UHD (4096x2160) resolution via DisplayPort, to offer wide business, creativity and productivity.

Easy to Upgrade- Leave Your Screwdrivers Behind
With simple, efficient and tool-free design , when you want to upgrade your LIVA mini PC, the only thing you need to do is open the bottom door and access to memory and storage.

Blazing-fast DDR4 RAM
LIVA One series mini PC considering users require large memory capacity to fill heavy productivity work; therefore one H310 mini PC supports 2x DDR4 SO-DIMMs up to 32GB memory!

Lightning Speed of M.2
LIVA One series mini PC delivers superior disk transfer speed, up to 1GB/s. Storage performance is so fast that users can enjoy high efficiency experience.

External 2.5” HDD/SSD Bay
LIVA one series mini PC has a 2.5 inches HDD/SSD bay, providing better storage flexibility. Not only up to 4TB HDD , but also fast SSD.
